- .Net
- Vue.js
- Git y Github
- Express
- MongoDB
- MySQL
- Java

SOFT SKILLS

- Teamwork,
- Self-learning
- Creativity
- Adaptability
- Results-orientation.

EXPERIENCE

T.I Assistant

REDBUBBLE

2023 - 2024

At RedBubble, I developed and honed my skills in web application management, CRM platform administration (such as Salesforce), and cloud service optimization. My responsibilities ranged from troubleshooting technical issues to implementing new solutions to enhance the user experience.

Personal Project

CINEMA APP

2024

A movie-focused application that allows users to view movie details, select seats and showtimes, purchase tickets, and generate QR codes. The application features an attractive and intuitive interface, integrated with various APIs for a smooth and efficient user experience. In this project I used technologies as React and Express.

EDUCATION

2024

CAMPUSLANDS
Desarrollo Backend
